

### FAMILY ADVENTURE GUIDE

TO THE PIKES PEAK REGION

# IN THIS GUIDE

3 TIPS FOR MOM & DAD

Learn how to acclimate, what to bring for the kids, and how to pack for your family outing.

6 PLACES FOR THE FAMILY TO EXPLORE

30 family-friendly places and hidden gems in the region are sure to please!

10 CARE FOR COLORADO

The Colorado Tourism Office and Leave No Trace Center for Outdoor Ethics have joined forces!

**11** FAMILY ACTIVITIES

Fun activities keep kids engaged and having fun! Activity sheets are included.

**23** ADVENTURE CLUB

The Pikes Peak Outdoors Adventure Club is FREE and fun for the kids!

25 JOURNAL PAGES

Older kids can use these pages to record their observations in nature; younger ones can draw their favorite forest creatures!

### **WELCOME**

Welcome to the NEW Family
Adventure Guide to the Pikes
Peak Region! This guide was
created to help you get started
exploring the outdoors together
as a family because sometimes
the hardest part is the planning.
Make sure to note
the Checklists available to make
this step just a little easier.

The Itineraries may just be the Easy Button you're looking for!

We have curated some of our favorite Places to Explore and also some lesser known gems in our area that are family-friendly and sure to please!

To help the kids feel connected and excited about exploring the outdoors, we have also created a club just for them: the Pikes Peak Outdoors Adventure Club.

Membership is free and the fun and rewards are a great way to motivate the kids to join in on the fun. The Adventure Club mascot is Palmer the Pika. To learn more about the challenges facing this small furry creature, or to get your own adorable stuffed pika see

www.PikesPeakOutdoors.org. Check out the social media contest we're holding this summer!

Keeping kids engaged – whether toddlers, tweens, or teens – is sometimes a challenge so we have created some fun **Activities** that educate while they entertain.

And if you want to explore further, look at www.PikesPeakOutdoors.org.

So, what are you waiting for? Get the calendar out and start intentionally marking off some time to get the whole family outside and enjoying this amazing region!

### TIPS FOR MOM AND DAD

### **Acclimate**

The Pikes Peak region is a high elevation destination, starting from Colorado Springs at 6,035 feet above sea level. The places you may want to explore go up from there, all the way to the summit of Pikes Peak, America's Mountain, at over 14,000 feet!

So, if you are coming from a lower elevation, it is wise to "acclimate" to being at higher elevation before taking on more strenuous or higher elevation activities.

Prepare with the "Five Fundamentals":
HYDRATION — NUTRITION — PROTECTION
NAVIGATION — MITIGATION.
See https://www.hitestoffice.org/activity.com/s

You may want to explore "town" (Colorado Springs, Manitou Springs, Canon City, etc.) for a couple of days before your more adventurous exploration.

At the very least, take plenty of water and consider some cans of oxygen, available at local retailers, in case you or a family member shows signs of altitude sickness.

When getting ready for an outdoor adventure with kids, here are some things to help you prepare:

- Layered clothing. In Colorado, a sunny morning could end in a hail storm.
   Avoid cotton – look for moisturewicking materials (poly blends, nylon, fleece...). Adding or removing layers keeps kids from being soaked with sweat or rain, and from becoming too hot or too cold.
- Rain gear. For the same reason the unexpected shower.
- Sun Protection. Even cloudy or snowy days at high elevation can result in sunburns. Hats with brims and sunscreen are a must. Sunglasses for the kids are also a plus.
- Proper Footwear. Nothing ruins a trip quicker than blisters. Also watch out for cactus (yep, even at high elevation), and rocks and pine needles. Wellfitting hiking shoes with closed toes and non-cotton socks are a must.

- Snacks. Keep their energy and spirits up with both yummy and healthy snacks. Some good ones include:
  - -Trail mix nuts, dried fruit, and seeds -Energy chews, bars, or powder for their water bottle
  - -Squeezable apple sauce
  - -Their favorite cereal
- Emergency Contact Info. For younger kids, write your name, address, and cell phone number and put in plastic bag or laminate and attach to their pack or jacket.
- Packs and carriers. Taking an infant on a hike will generally require a carrier comfortable for both baby and parent. There are some trails wide and flat enough for strollers just make sure you've done your research ahead of time. A child-sized backpack or string bag (such as the Adventure Club bag) is a great way to get the kids excited and they can help carry some of their personal items, including a water bottle or small hydration bladder.

- Wet wipes. These multi-purpose wipes, especially anti-bacterial ones, are great when Jr. picks up items that are sticky (pine needles), plays in the stream, or wipes dirt on his face.
- Trash bag. You'll want to pack out what you pack in. With snack wrappers, waste from lunch, wipes, etc. you'll be glad you thought to bring a small bag for trash.

# TOYS FOR YOUR KIDS WHEN HIKING

- This is where your creativity comes in, and we have included some activities to help make your outing both fun and educational!
- Your kids may beg you to bring their favorite toys. Little ones may want their stuffed animals; older kids may want games and technology.
- Taking one or two small stuffed animals may be a good idea to keep the little ones happy exploring.

#### Also not a bad idea...

Bring along extra clothes and snacks to leave in the car for the trip home.

- In fact, we encourage you to take
   Palmer the Pika on your adventures
   and take selfies with him that you can
   later post to the Pikes Peak Outdoors
   Instagram or Facebook social media
   accounts!
- Technology certainly has its place
   when used to help youth engage with
   nature, not distract from it.
   Downloading nature apps in advance
   may help older kids connect and some
   nature centers and parks incorporate
   technology into their self-guided tours.
- Whenever possible, encourage the kids to use their imagination and their senses to look for wildlife and play with the natural world – sticks, pine cones, rocks, and creeks.

# PLACES FOR THE FAMILY TO EXPLORE

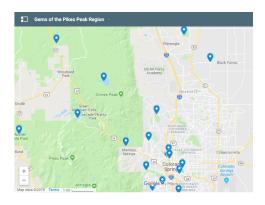

### 30 Gems of the Pikes Peak Region

We are so excited that you are reading the Family Adventure Guide and are looking for great places to enjoy together as a family! There are countless places to enjoy – from lakes and reservoirs, parks and open space, to trails and nature centers.

We have gathered together 30 spots we think you will enjoy in the Pikes Peak region, but realize there are countless others! Some of these are included due to their focus on families and kids of all ages and others are included as hidden gems that may not be well-known but have some characteristics and amenities families will appreciate.

Although this printed Guide will get you started, we have much more information on our

website, www.PikesPeakOutdoors.org. A map is included to help you locate each one, as well as a link to the web page describing the place. So make sure you check out the website.

### CARE FOR COLORADO

Colorado has a unique partnership! Our state tourism office has joined together with Leave No Trace in a first of its kind collaboration to promote the use of outdoor ethics among those visiting Colorado. They launched a new brochure in May 2018 to make it easier to understand and put into practice.

These principles make sense for all of us – visitors or residents.

If you would like to download your copy of the brochure to the right, which includes tips for how to prepare for the outdoors in Colorado as well as living like a local, please go to our Outdoor Ethics web page at https://pikespeakoutdoors. org/outdoor-ethics/

Before you head out on your adventure, check out this video with the whole family to start a conversation about caring for Colorado while in the outdoors!

#### Go To:

https://www.youtube.com/watch ?v=JcY73nUhaQs **FAMILY ACTIVITIES** 

As a family, you may choose to hike, bike, horseback ride, paddle – any number of fun recreational activities! Please check out www.PikesPeakOutdoors.org for specifics on these activities, as well as local providers of gear, classes, and guided tours.

Here are some ideas for when you're on foot exploring. The activity sheets follow.

### 1. Alphabet Hike

Although many would say to leave all technology behind when exploring the outdoors, your phone and/or camera can be helpful tools to engage the entire family and a photo hike is one of those ways. Ask the kids to find things in nature that are shaped like letters of the alphabet. A mountain peak may be an "A", a branch or cloud or rock, etc., could form other letters.

Another twist is to have them identify objects in nature that BEGIN with each letter of the alphabet, starting with A, then B, and so on. If they take pictures they can explore independently and come together to share them later. Or they can identify them without photos as you walk along a trail or explore a park together. Download and print the Alphabet Hunt activity sheet for your young explorers to write down what they find for each letter if you don't want to take pictures.

### 2. Scavenger Hunt

Scavenger hunts can be fun and keep the entire family interested! For the little ones, finding simple items in nature that are easy for them to identify is best. Increase the degree of difficulty or challenge based on the ages of the kids.

A couple of scavenger hunts follow to make it easy: one for younger children and one for older kids. These hunts are VISUAL only; please don't have the kids collect the items – they should leave them where they found them but just mark off that they spotted them.

You can play the hunt as a Bingo game and award prizes to make it more interesting – 5 in a row or a blackout (finding everything).

# Alphabet Scavenger Hunt

Find something in nature that begins with each letter!

A	N
	0
	Ρ
	Q
E	R
F	s
G	Т
н	u
	V
	W
	×
	Υ
	Z

# Nature Bingo

See if you can find the items in each box! Color in each box as you do.

### Nature Scavenger Hunt & Bingo

Shade in each box as you find the item! Try to get 5 in a row!

Butterfly	Green Grass	Biird with Nest Material in its Beak	Pink Flower	Patch of Snow or Ice
Clouds	Tree Sap	Вее	Muddy Trail	See or Hear a Hummingbird
White Flowers	Animal Tracks	FREE	Buds on a Tree	New Plant Shoots
Spider Web	Fly Buzzing	Warm Sun on Your Face	Nest	An Ant
Flower Buds	Water Drops on Leaves	Birds Singing	Lichen on a Rock	Feather

### Outdoor Activity List

As you explore the outdoors, challenge yourself with these activities!

Find a twisted tree trunk	Watch a hawk soar
Determine the time of day by the sun's position	Find a frog or cricket following its noises
Locate a bird's nest	Find a spider in its web
Find some wild columbine	Find some wild Indian
Catch a fish	
Build a shelter	Skip a rock on water
Spot wildlife such as deer	Build a shelter
or a rabbit	Help someone younger with their outdoor activity
Find a natural spring	,
Find a twisted tree trunk	Spot wildlife such as deer
Way find using a map	Smell a pine tree
, , ,	Build a campfire in an approved grate/ring

## Challenge Scavenger Hunt

Shade in each box as you find the item! Try to get 5 in a row!

2 Trees Twisted Together	A Tick or Beetle		Columbine Flowers	
A Stump with 30+ Rings	Tree Sap	Fish or Tadpoles	Berries	Animals that are Feeding
Skip a Rock on Water	Indian Paintbrust Flowers	FREE	Seed Pods on a Plant	Catch a Butterfly
A Fancy Spider Web	Yucca or Cactus	Warm Sun on Your Face	Rocks Showing Layers	Coyote Scat
Flower Buds	Water Drops on Leaves	A Bird of Prey	Lichen on a Rock	Trail Marker

### **FAMILY ACTIVITIES**

#### 3. Make a Nature Boat

Find items in nature and see if they float by putting them in a creek. Then

develop your floating device, putting sticks together, etc., to see if it can move. Grass or reeds will help in the development of the boat.

Another option if for kids to each find small objects they think will float and "racing" them. Have them locate the items and release them at the same time and see which ones float and race faster downstream! (As always, be safe around the water's edge and watch the kids closely.)

### 4. Sensory Activity

Teaching the family to use their senses when exploring the outdoors is a great way for everyone to slow down and notice their outdoor environment. This activity can be done as a group as you walk along a trail, or once you've arrived at your destination.

Older kids can be challenged to sit in an area and observe, using their senses, starting with a large perimeter – such as everything they can see – and moving closer to them such as within 50 feet, 10 feet, and then 2 feet around them. It helps them notice all of the life and cool aspects of nature that can be so minute they can easily be missed. For these older kids, you might suggest they journal what they see, hear, and smell.

### 5. Nature's Symphony

Part of the beauty of nature is the soothing sounds that can only be found when we leave the noises of the city. It may take some intentionality on your part for the family to actually hear what's going on around them. So at certain points of your hike or once you've arrived at your destination, have everyone be quiet for one full minute and listen. Then have them share what they heard! They might hear the wind through the trees, the rustling of small mammals like squirrels, birds calling out, water in a stream, etc.

# Sensory Adventure

Use your senses to enjoy the outdoors! Record what you see, hear, smell, and touch.

See

Hear

Smell

Touch

### **FAMILY ACTIVITIES**

### 6. Predator/ Prey Game

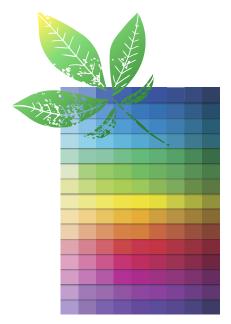

#### Directions:

- Take the group to a "thicket" an area with lots of trees, tall grasses, bushes.
- Designate one child as the "predator."
   The predator should face away from the thicket with closed eyes and slowly count to 20 while the other children/family members, or "prey" hide. Those who are hiding must be able to see some part of the predator at all times.
- After counting, the predator opens
  their eyes or removes the blindfold and
  looks for prey. The predator can turn
  around, squat, or stand on his or her
  tiptoes, but cannot walk or change
  location. The predator should see how
  many children or family members he or
  she can find, identify them out loud,
  and describe where they are. When
  identified, the prey moves to the
  predator's location and wait until the
  next round to become predators.

### 7. Color Matching

Using paint samples from local hardware stores, see how many colors you can find in nature. Provide a sample sheet for each family member or have a couple of them share one, and have them look around to see if leaves, water, dirt, rocks, etc. match the colors on their sample.

### **FAMILY ACTIVITIES**

#### 8. Go on a Rock Hunt

The Pikes Peak region is part of the Rocky Mountains and they are appropriately named! We have all types of rocks – big, little, shiny, dull, flat, round, etc. And some grander displays of rock formations can be found at Garden of the Gods and Red Rock Canyon Open Space.

For families exploring the region, looking at variety of rocks can be a fun activity in and of itself! Just remember to teach Leave No Trace principles and not collect the rocks but identify them on a Rock Hunt activity sheet or with pictures instead.

# 9. Animal Track Matching Game

Help your family learn about the various types of animals found in the Pikes Peak region through matching their tracks to their names. Then see if you can find these tracks at the places you explore! Check out the Encountering Wildlife page on www.PikesPeakOutdoors.org to learn more about animals you may encounter when exploring the Pikes Peak region.

# 10. Animal Scat Identification Game

Animals leave telltale signs that they've been somewhere. Some mark trees, build nests, leave tracks, but they also... leave what we call "scat" (another name for animal poo.) Scat can be found along trails, in picnic areas, just about anywhere you go on an outdoor adventure! Kids will have fun identifying what animals have been in the area by checking out their scat and thinking what candy it looks like! Just remind them to never handle the animal scat – just look at it.

Mouse - Candy Sprinkle
Snowshoe Hare - M&Ms
Marmot - Tootsie Roll
Deer - Raisinets
Elk - Milk Duds

## Rock Hunt

Find the rock types indicated and color in or check off the box. See how many you can find! Remember to leave them where you find them.

Flat Rock Red Rock Cool Shaped Rock

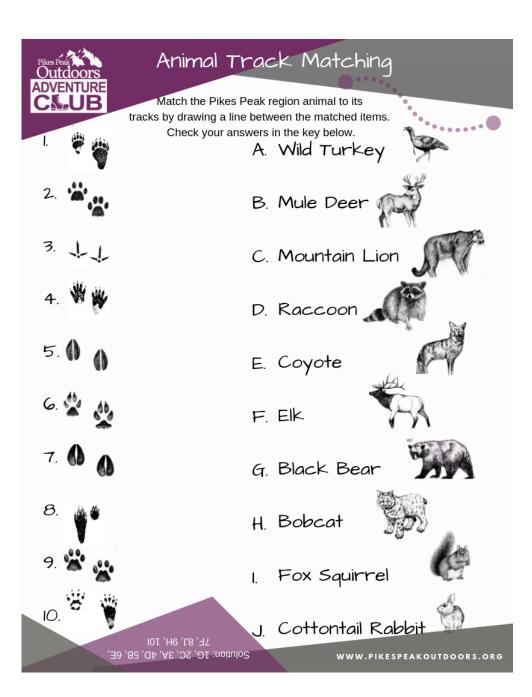

Shiny Rock Rock with Lines

Volcanic Rock

Egg Shaped Rock

Rock Bigger than Me

White Rock

### **ADVENTURE CLUB**

The Pikes Peak Outdoors Adventure Club is a club for kids of all ages who want to explore the great outdoors in the Pikes Peak region! Your adventures can be big or small, many or few. It's free, it's fun, and it gets you outside where fun and discovery await you!

#### To participate in the Club, go online to...

- Take the Pikes Peak Outdoors
   Adventure Club Pledge (see next page)
- Complete and submit the Club Membership Application
- Receive your Certificate and Proof of Club Membership in the mail
- Plan where to go on your adventure!
- · Go exploring!

Go To: https://pikespeakoutdoors.org/explore/ family-adventure-guide/adventure-club/

#### Instagram:

https://www.instagram.com/pikespeakoutdoors/ Facebook:

https://www.facebook.com/pikespeakoutdoors/

As a Bonus, enter the Pikes Peak Outdoors Adventure Club Social Media Contest:

- Take pictures of you (selfies) and your proof of membership – sticker, button, string bag, or Palmer the Pika – on your adventure
- 2.Submit your photo(s) on
  PikesPeakOutdoors social media with
  the hashtag #pikespeakoutdoors to enter
  our Pikes Peak Outdoors Adventure Club
  contest!
- 3. You'll be entered in a drawing to win fun outdoor prizes from our local Partners!
- 4. Your picture may be displayed at one or more Visitor Centers in the Pikes Peak region!

### **ADVENTURE CLUB**

# Adventure Club Pledge

I pledge to:

C Curiosity Apply my curiosity to learn about the natural world,

Engage my spirit of adventure to explore outdoor places and A Adventure

activities in the Pikes Peak region.

Respect nature and others by following Leave No Trace Respect

principles, and

Example Encourage others to follow my example.

Find the Leave No Trace Principles, the Membership Application, and the items you can choose as your proof of club membership at

https://pikespeakoutdoors.org/explore/

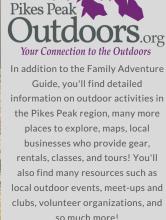

Why is this adorable creature, Palmer the pika, the club mascot? Read and find out on the website!

We hope this Family Adventure Guide to the Pikes Peak Region has inspired you to explore and helped equip you for your next family adventure.

This small print guide cannot contain all the helpful tools, and we're constantly creating more! So please head to the www.PikesPeakOutdoors.org website, click on "Explore" and there you'll find the Family Adventure Guide.

On the digital guide there is MUCH MORE FUN, including the following:

- Checklists for Parents, Explorers, and even your Dog!
- Easy Button Itineraries!
- Word Searches and other downloadable activities
- Information on Encountering Wildlife
- A citizen science project underway to research the pika
- Swag for the Adventure Club

Special thanks to all of the following for making this guide possible! Funding was provided to The Pikes Peak Outdoor Recreation Alliance (PPORA) through a grant from the Colorado Tourism Office and the City of Colorado Springs.
